PROFESSIONAL EXPERIENCE

Isla Lipana & Co. / A PwC Member Firm | Makati, Metro Manila, Philippines

May 2024 - Present

Cybersecurity and Privacy Associate (Hybrid, Full-time)

- Conducts advanced Vulnerability Assessments and Penetration Testing using proprietary offensive tools on critical infrastructures, networks, and applications for multinational organizations.
- Executes Red Team Operations and Social Engineering, simulating sophisticated cyberattacks using C2 servers to test and enhance organizational defenses.
- Ensures compliance with global security framework (NIST SP 800-53 Rev. 1) strengthening regulatory adherence and risk management.

Insightz Technology Pte Ltd | Kampong Ubi, Singapore

November 2023 - February 2024

Junior Security Analyst (Remote, Internship)

- Conducted threat analysis on 100+ endpoints, identifying and mitigating critical vulnerabilities within three months while monitoring, analyzing, and responding to security threats in real time. Provided critical insights and strategic recommendations to strengthen defenses, assisted in high-level security reporting and threat intelligence, and achieved SecureWorks and Fortinet certifications, reinforcing expertise in cybersecurity operations.

Trend Micro, Inc. | Pasig, Metro Manila, Philippines

July 2023 - August 2023

Associate Cyber Security Analyst (Hybrid, Full-time)

- Undertook a 6-week training in Active Directory Fundamentals, SIEM Operations (ELK), Log Analysis, DFIR Operations, Network Traffic Analysis, Python Automation, AWS Fundamentals, and Blue Team Fundamentals (SANS SEC450).

CERTIFICATIONS

- TryHackMe Cyber Security 101 (SEC1) February 2026
- CyberWarFare Labs Certified Red Team Analyst (CRTA) October 2025
- CompTIA Security+ ce Certification March 2024
- ISC2 Certified in Cybersecurity December 2022

EDUCATION

Bachelor of Science

- Major in Information Technology, Cybersecurity Specialization

**Mapúa University
School of Information Technology**

CONTINUING PROFESSIONAL EDUCATION

- HTB Academy: Preparation for Certified Bug Bounty Hunter (CBBH) and Certified Penetration Testing Specialist (CPTS) through structured, hands-on penetration testing labs.
- TryHackMe: Preparation for PT1, focusing on practical offensive security fundamentals, enumeration, exploitation, and privilege escalation.
- PortSwigger Academy: Preparation for Burp Suite Certified Practitioner (BSCP) with in-depth web application security labs and Burp Suite hands-on exercises.

RESEARCH PUBLICATION

Security Assessment of an Enterprise E-mail and Domain Name System: A Case Study

2022 2nd International Conference on Industrial Engineering and Operations Management (IEOM), Warangal, India

ISBN: 978-1-7923-9160-6, DOI: <https://doi.org/10.46254/IN02.20220233>

AcneCheck: An Acne Severity Grading in Teledermatology Through Computer Vision

2023 13th International Conference on Software Technology and Engineering (ICSTE), Osaka, Japan

ISBN: 979-8-3503-7147-5, DOI: <https://doi.org/10.1109/ICSTE61649.2023.00027>

AFFILIATIONS

- Certification Holder, The Computing Technology Industry Association (CompTIA) (2024-Present)
- Certification Holder, International Information System Security Certification Consortium (ISC2) (2022-Present)
- Alumni, Mapúa University, School of Information Technology (2019-2023)
